## SUMMARY

---

Enthusiastic **MERN** Stack Developer with hands-on experience in building dynamic web applications using **React**, **Node.js**, **Express**, and **MongoDB**. Skilled in full-stack development with a focus on performance, scalability, and user experience, eager to contribute to real-world projects.

## PROJECTS

---

### WanderLust

[Live](#)

- Developed a full-stack travel listing platform, improving user interaction efficiency by **(40%)** through optimized CRUD operations and seamless UI flow.
- Implemented secure authentication and authorization using **Passport.js**, reducing unauthorized access risk by **(90%)** and ensuring data integrity..
- Integrated **Mapbox** and **Cloudinary APIs**, enhancing user experience by **(50%)** with real-time location visualization and efficient image handling..
- Tech Stack Used: Node.js, Express.js, MongoDB (Atlas), **EJS**, CSS,HTML,Javascript, Cloudinary, Mapbox, **Render**

### TalkToText

[Live](#)

- Built an AI-powered speech-to-text application using **React** and **OpenAI Whisper API**, achieving **(85–90%)** transcription accuracy for real-time voice inputs.
- Optimized client-side audio handling and **API integration**, reducing response time by **(30-40%)** and improving overall transcription performance..
- Implemented a responsive UI with **Tailwind CSS**, improving accessibility and user engagement by **(25%)** across multiple screen sizes.

## SKILLS

---

|                       |                                                                                                                                 |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Programming Language: | JavaScript                                                                                                                      |
| Frontend:             | React.js, HTML, CSS, Tailwind CSS, Bootstrap                                                                                    |
| Backend:              | Node.js, Express.js                                                                                                             |
| Database:             | MongoDB, MySQL                                                                                                                  |
| Developer Tools:      | VS Code, Git, GitHub, Chrome DevTools, npm, Postman, MongoDB Compass                                                            |
| Coursework:           | Object Oriented Programming, Data Structures and Algorithms, Computer Network, Software Engineering, Database Management System |

## EDUCATION

---

**Bansal Institute of Engineering and Technology**

B.Tech - IT CGPA - (7.75)

## CERTIFICATIONS

---
